SKILLS

UI/UX Design: Adobe XD, Figma, Sketch, Wireframing, Prototyping, User Research, User Testing, WCAG Guidelines

Web Development: HTML, CSS, JavaScript, ReactJS, Bootstrap, TailwindCSS, Netlify, GitHub

Tools: Git, JIRA, Microsoft Teams, Gitlab, Microsoft Office, Google Suite

Soft Skills: Communication, Collaboration, Time Management, Problem Solving, Critical Thinking

EXPERIENCE

Zeus Learning

Aug 2023 – Present

Design Analyst/UI Designer - Full Time

Mumbai, India

- Designed and implemented features for a learning management system used by over 1 Million+ Students, improving usability and user satisfaction by 20%.
- Collaborated with cross-functional teams including developers, QAs, and stakeholders to gather requirements and ensure smooth integration of UI/UX designs, leading to a 15% reduction in development time.
- Leveraged UX design tools such as Adobe XD and Figma to create wireframes, interactive prototypes, and conduct user testing, applying iterative design methods to optimize user flows and enhance stakeholder alignment with user-centric design solutions.
- Overhauled the flagship product of Zeus Learning, Quantum LMS/CMS, incorporating modern design principles, leading to a 25% improvement in user engagement and a 30% reduction in user errors for admins, teachers, and students.

MAI Labs [\[Link\]](#)

June 2023 - Aug 2023

UI Developer - Freelance

Mumbai, India

- Developed design components for Mai Labs' website, through a cohesive and visually appealing brand presence.
- Collaborated closely with project managers, designers, and developers to deliver seamless and effective design solutions, meeting project deadlines 100% on time.

Corbin Technology Solution

Jan 2023 - May 2023

UX Designer - Intern

Mumbai, India

- Designed and developed the UI for an e-commerce application, focusing on the splash screen, dashboard, and payment gateway flow.
- Collaborated with developers to implement design components, ensuring alignment and smooth integration.
- Utilized version control with GitHub for efficient collaboration and hosted the website on Netlify.

PROJECTS

Tryplore - Clothing App Case Study [\[Link\]](#)

- Conducted extensive user research and usability testing to design an intuitive and visually appealing clothing app.
- Created high-fidelity prototypes and wireframes using Adobe XD and Figma, resulting in smoother design approval processes.

UniLearn - Accessible LMS Platform

- Designed an accessible Learning Management System (LMS) platform to support diverse student needs, including those with disabilities, ensuring full alignment with all relevant WCAG accessibility standards.
- Delivered detailed, developer-ready design mockups, fostering seamless collaboration between design and engineering teams for efficient implementation.

Amazon Assure - Smart Delivery Protection System

- Conceptualized and designed a high-value goods delivery system as part of a product management course, unrestricted by technical or financial constraints, featuring AI-based damage detection, geolocation tracking, and automated delivery rescheduling based on user availability.
- Performed in-depth competitive and market analysis, defined core features through user research, and created detailed product flows and prototypes to align the solution with user needs and strategic goals.

EDUCATION

Bachelor of Engineering in Electronics and Telecommunication

2019 - 2023

Dr. D Y Patil's Ramrao Adik Institute of Technology, Mumbai University

Mumbai, India
